

Concerted Action on the RES Directive (EU) 2018/2001 (CA-RES)

Phase 4

CA-RES4 Coordination Team:

Leonardo Barreto, Eva Janechova, Rudolf Köstler, Denise Eck, Valerie Braterschofsky

2023

Background

- Directive (EU) 2018/2001 on the promotion of renewable energy sources (RES) was adopted in 2018
- The RES Directive benefits from a structured dialogue between the participating countries, as well as from common approaches and solutions
- The Concerted Action (CA-RES) supports the implementation of the RES Directive and the achievement of the EU target

What is a Concerted Action?

- Structured, **confidential** dialogue between national authorities implementing an EU directive
- Through a Concerted Action, the participating countries exchange experience and best practices, participate in a cross-learning process and develop common approaches

Objectives

- Facilitate a structured exchange of information, experience and good practice regarding the implementation of the Renewable Energy Directive (EU) 2018/2001 between participating countries,
- Encourage dialogue between participating countries to develop common approaches for the implementation of particular parts of the Directive,
- Support the effective implementation of the Renewable Energy Directive (EU) 2018/2001 in participating countries

Expected Results

- Consolidation and strengthening of the network of experts and the information-sharing framework.
- Exchange best-practice examples and share experience in key areas
- Coordinated implementation and common approaches where they are beneficial
- Mutual support on the implementation of the Directive will be encouraged.
- Participants will identify possible areas for potential future convergence amongst MS.

CA-RES4: Characteristics

- Joint initiative of EU Member States (plus Norway and Iceland) and the European Commission (DG ENER, CINEA)
- Duration: 1 June 2021 – 31 January 2026
- **Confidential** process
- Co-funded by the Horizon 2020 Programme of the European Union

Structure

Coordination: Austrian Energy Agency (AEA)

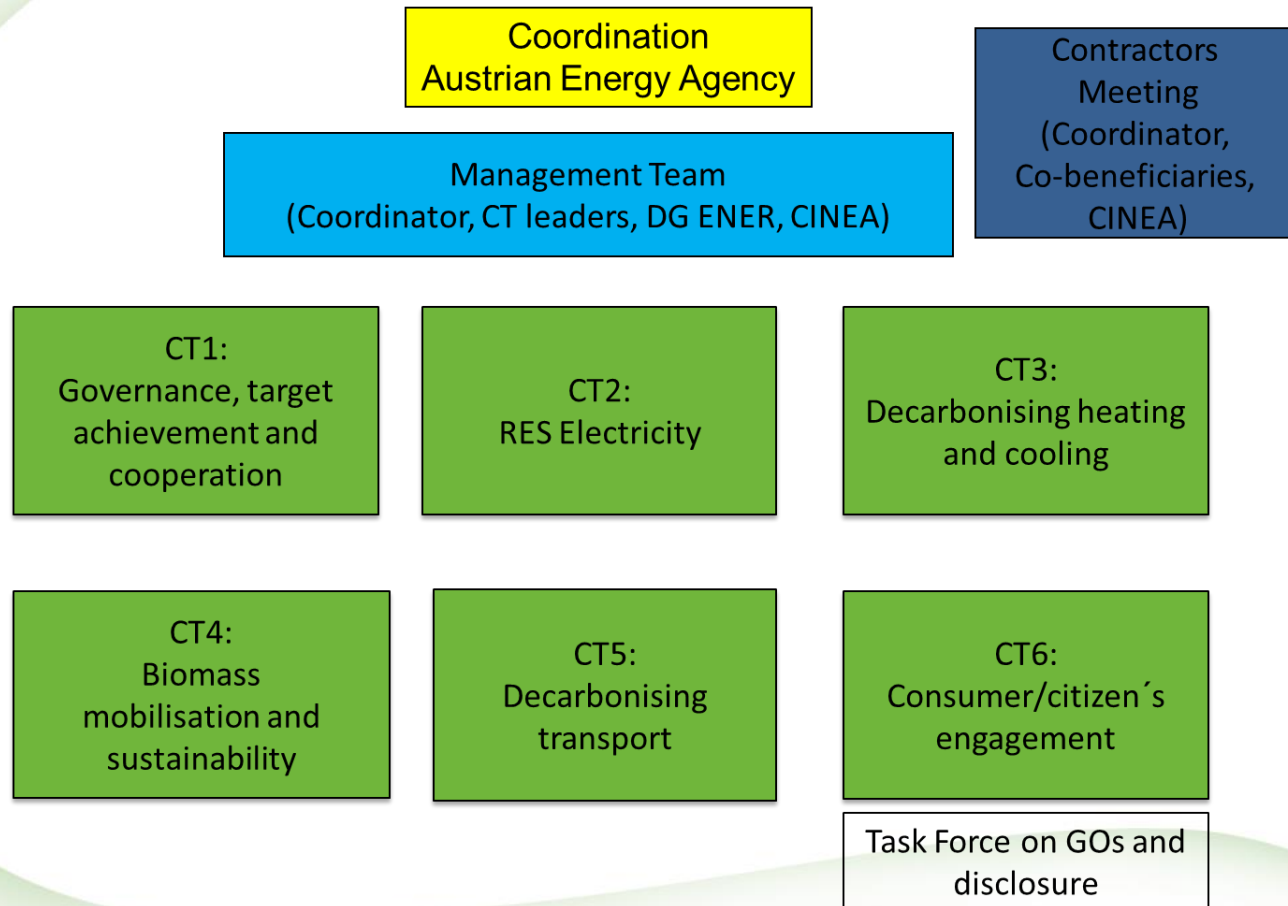

Participants:

- National authorities responsible for the implementation of the RES Directive or bodies appointed by national authorities

Core Themes:

- 6 Core Themes on key topics of the Directive

Structure

CA-RES4: Core Themes

- CT1: Governance, Target achievement and Cooperation
- CT2: RES Electricity
- CT3: Decarbonising Heating and Cooling
- CT4: Biomass Mobilisation and Sustainability
- CT5: Decarbonising Transport
- CT6: Consumer´s/Citizen engagement

Benefits of the CA-RES: A network of experts

- A valuable network of experts has been created and consolidated
- Participants share knowledge and experience for finding solutions
- Participants look for solutions or can offer solutions to others

1st Plenary Meeting (virtual)

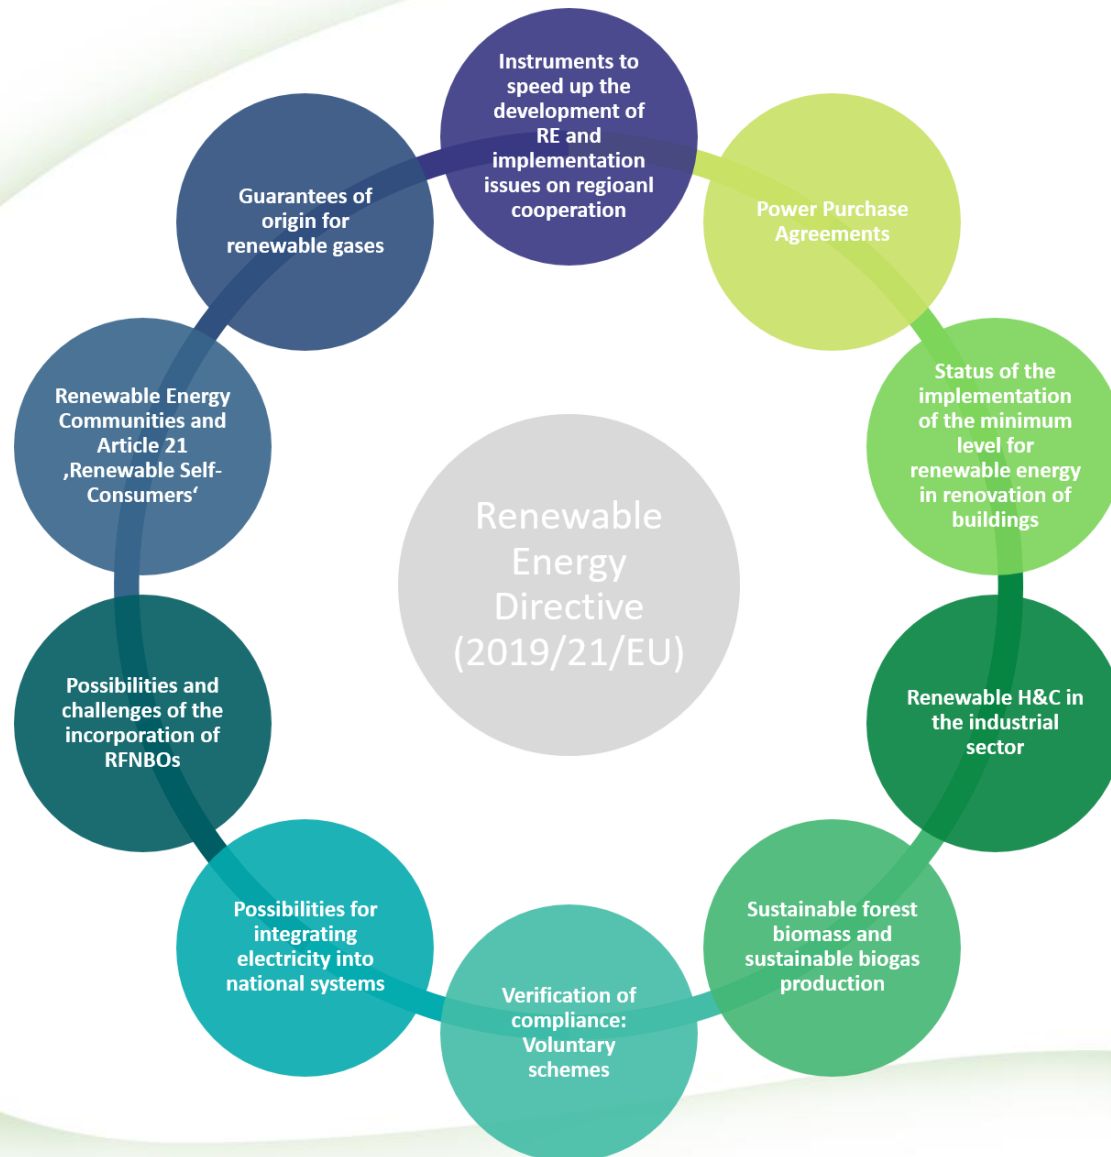

- Three plenary meetings have been held so far:
 - 17-18 November 2021 (virtual)
 - 18-19 May 2022 (virtual)
 - 9-10 November 2022 (Athens, Greece)

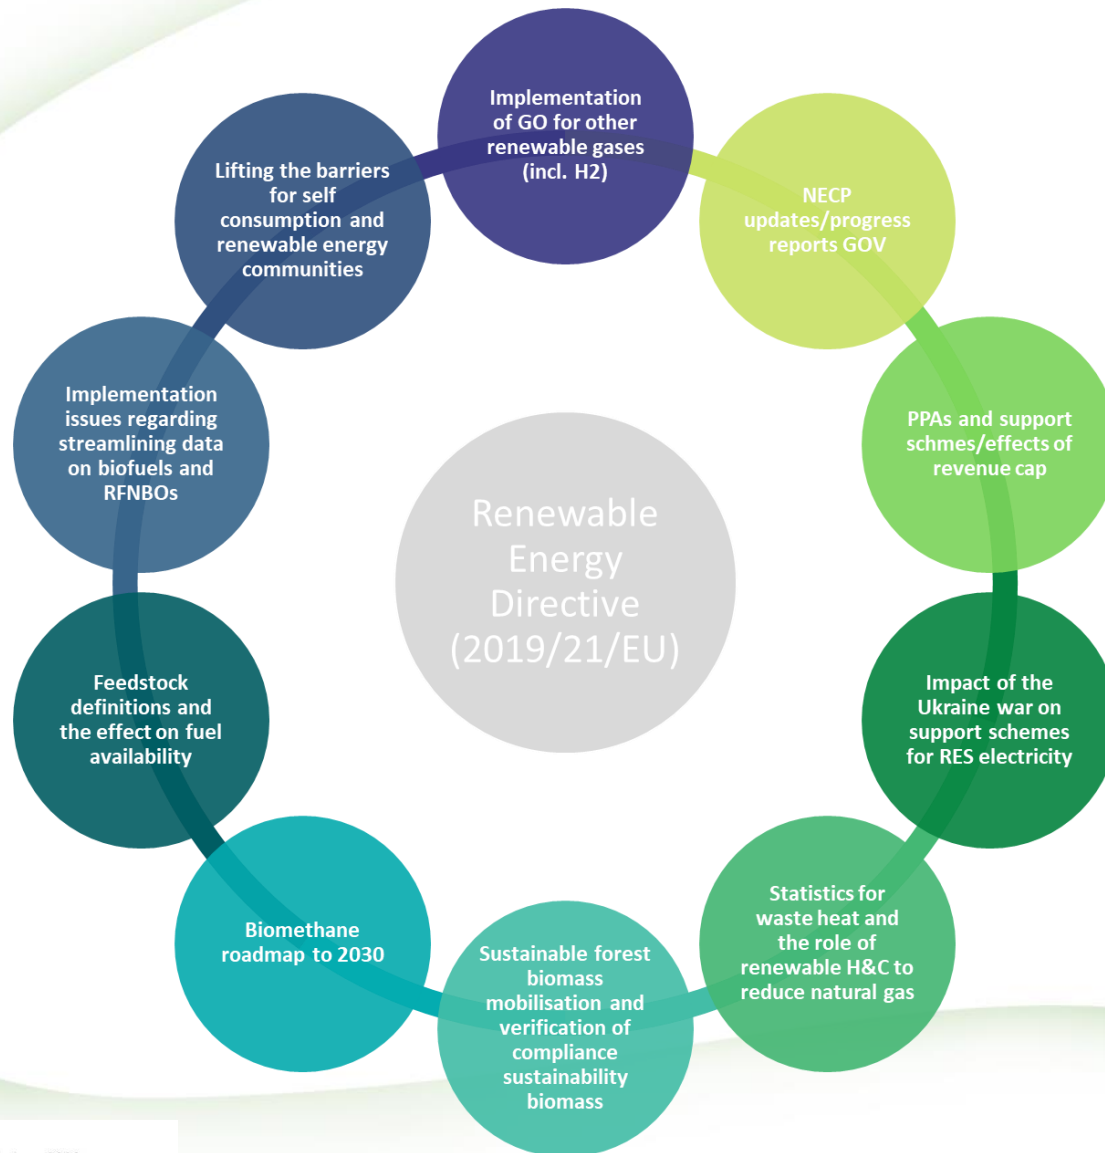

1st Plenary Meeting (virtual)- Topics

2nd plenary meeting: Topics

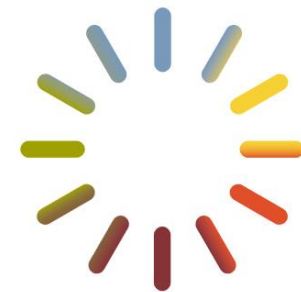

3rd plenary meeting: Topics

Expected publicly available outcomes

- **Highlights** from the plenary meetings can be found here: <https://www.ca-res.eu/highlights>
- **Core Theme Publications** and **Executive Summary** covering the whole 4th phase of the CA-RES
- Publications from the 3rd phase <https://www.ca-res.eu/outcomes/ca-r-publications> at

CA-RES
10 years
of challenges
overcome

Interactions and Linkages

- Energy Performance of Buildings Directive (EPBD)
- Energy Efficiency Directive (EED)
- Link to H2020 projects related to the RES Directive and other relevant initiatives and actors
- Ongoing dialogue with CA EED and CA EPBD
- Observer status of the Energy Community Secretariat in the CA-RES

THANK YOU FOR YOUR ATTENTION!

CA-RES4 Partners

1. Austrian Energy Agency (AEA), Austria
2. Service Public de Wallonie (SPW), Belgium
3. Ministry of Economy (ME), Bulgaria
4. Ministry of Economy and Sustainable Development (MESD), Croatia
5. Ministry of Energy, Commerce and Industry (MECI), Cyprus
6. Danish Energy Agency (DEA), Denmark
7. Ministry of Economic Affairs and Communications (MKM), Estonia
8. Ministry of Employment and the Economy (TEM), Finland
9. Ministère de l'Environnement, de l'Energie et de la Mer (MEDDE), France
10. Federal Ministry of Economic Affairs and Energy (BMWi), Germany
11. Center Renewable Energy Sources (CRES), Greece
12. Hungarian Energy and Public Utility Regulatory Authority (MKEH), Hungary
13. Ministry of Industries and Innovation (ANR), Iceland
14. Department of Environment, Climate and Communications (DECC), Ireland

CA-RES4 Partners

15. Ministry of Economy (EM), Latvia
16. Ministry of Energy (ENMIN), Lithuania
17. Ministry of Economy (MINECO), Luxembourg
18. The Energy and Water Agency (SEWCU), Malta
19. Netherlands Enterprise Agency (RVO), Netherlands
20. Ministry of Petroleum and Energy (OED), Norway
21. Polish National Energy Conservation Agency (KAPE), Poland
22. National Energy and Geology Laboratory (LNEG), Portugal
23. Romanian Energy Regulatory Authority (ANRE), Romania
24. Slovak Innovation and Energy Agency (SIEA), Slovakia
25. Ministry of Infrastructure (Mzi), Slovenia
26. Institute for the Diversification and Energy Saving (IDAE), Spain
27. Swedish Energy Agency (STEM), Sweden
28. Gestore dei Servizi Energetici – G.S.E. S.p.a (GSE), Italy
